13th February 2022

Dear Councillors,

Request for funds from the Allotment Budget

Canvey Island Horticultural Society would like to purchase an 80volt battery powered lawn mower for use at Waterside Allotments. A petrol mower had been considered but due to the change in fuel from E5 to E10 we have been advised that a battery mower would be more suitable.

The mower will be used by current members of the Horticultural Society, but mainly by Roger Payne and Alan Poulsum, to ensure the footpaths and entrances of the allotments are kept clear and to make access easier for all plot holders.

It is hoped that we will be able to recruit more volunteers from the existing plot holders at Waterside to help with this work so we can create more of a community where people have pride in their plots.

A price for a suitable mower has been obtained from GMD and it is enclosed with this letter. We hope that the Council will agree for part of this years budget to be used for this purchase.

Yours sincerely,

On behalf on Canvey Island Horticultural Society
