## Community information drop-in

### Canvey Island southern shoreline revetment replacement

From January, we will begin setting up the main and first satellite compounds in advance of our works to renew and improve the erosion protection on the seaward face of the tidal defences, known as revetment. This work will begin in early spring and takes place along a 3km stretch between Thorney Bay and the Island Yacht Club.

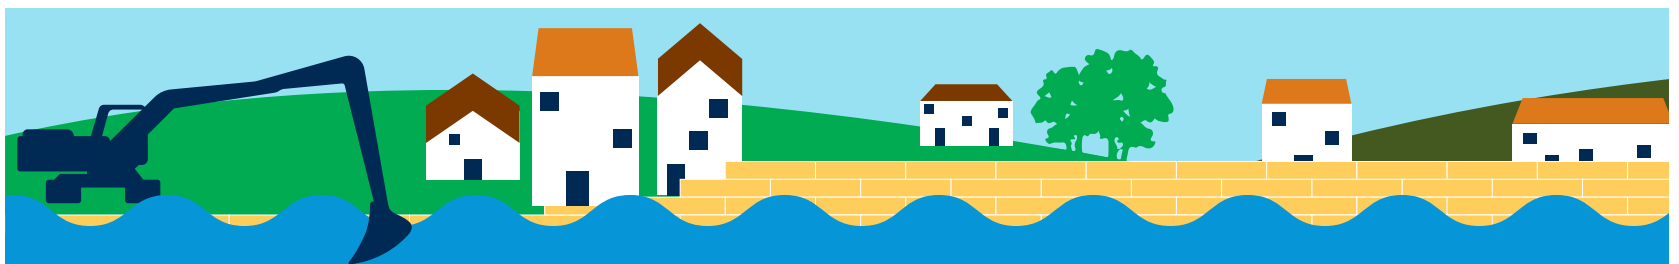

These works will help maintain the existing high level of tidal flood protection for thousands of homes and businesses, plus local infrastructure, on Canvey Island through to 2070.

#### Drop-in session

On **14 December 2022** we are holding a drop-in event at **Jimmy Mac's, 4 Eastern Esplanade, Canvey Island, SS8 7DN**.

This event will give you the chance to find out more about the scheme and you will have the chance to ask the project team questions. Please feel free to drop in anytime between 11am-2pm. A selection of complimentary hot drinks and mince pies will be served.

#### Find out more about the scheme

Find out more by using your smart phone to scan the QR code on the right to visit the project's website or go to:
